HOW TO GIVE ACCESS TO

# Google Business Profile

Formerly Google My Business

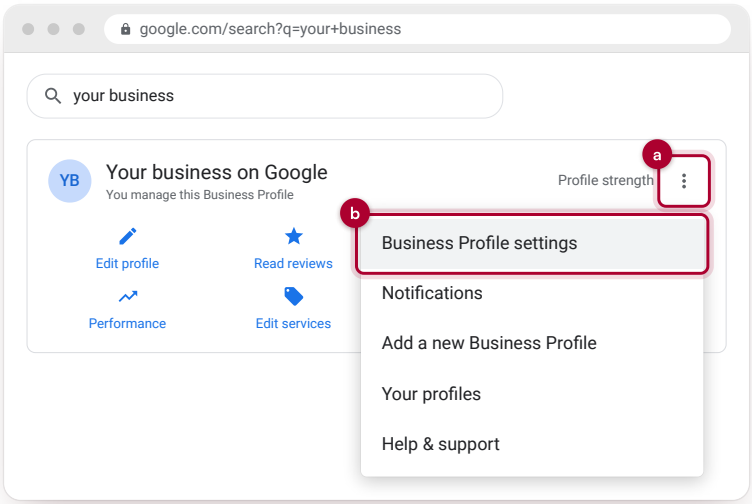

Follow the steps below to give **Beatus Mídias** admin access. With it, we can set up, measure and optimize everything on our end, without having to ask your permission for every change.

| TIME | WHAT YOU'LL NEED | BEATUS EMAIL |
|---|---|---|
| **2 minutes** | Be logged in to Google with the email that manages your business profile. | kiokurama@gmail.com |

## 1 Open the profile settings

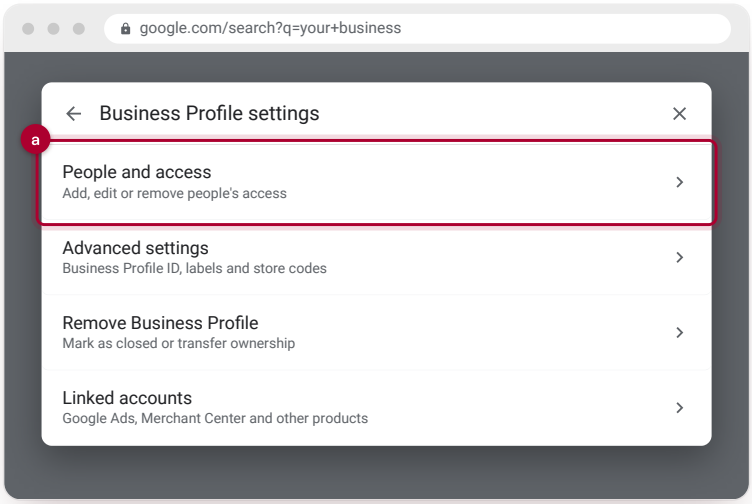

a. On Google, logged in with the email that manages the profile, search for your business name. In the **Your business on Google** panel, click the **three dots**.

b. Choose **Business Profile settings**.

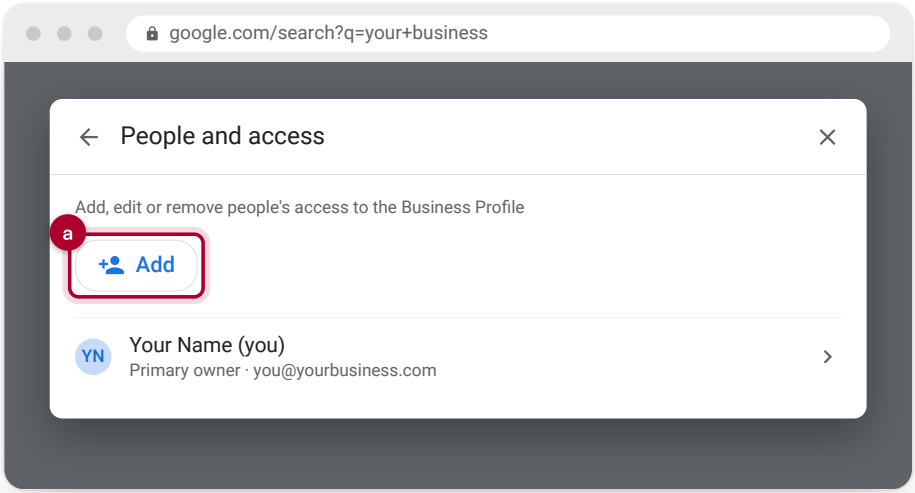

## 2 Go to People and access

a Click **People and access**.

## 3 Click Add

a This screen shows who already has access. Click **Add**.

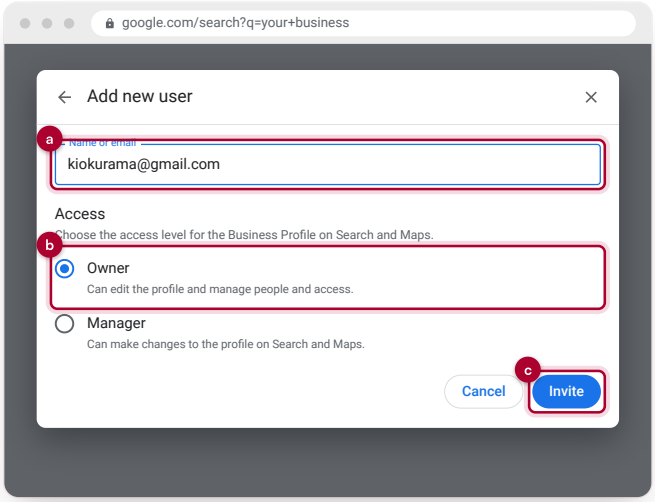

## 4 Invite Beatus

a. Type the Beatus email: **kiokurama@gmail.com**

b. Under **Access**, select **Owner** (the profile's admin level).

c. Click **Invite**.

### All set!

When you're done, let us know in our WhatsApp group. We'll check the access and get back to you there.

### If something looks different

- The **Your business on Google** panel didn't show up? You're probably logged in with another email. Switch accounts in the top right corner and search again.
- Don't have a Business Profile yet? Let us know in the group and we'll create and verify it with you.
- Does your screen look different from ours? Send a screenshot in the group and we'll guide you.
