HOW TO GIVE ACCESS TO

Google Search Console

How your website shows up in Google Search

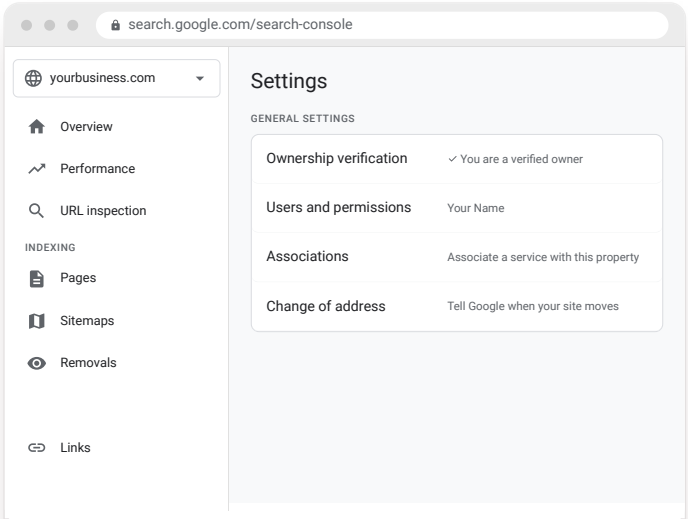

Follow the steps below to give **Beatus Mídias** admin access. With it, we can set up, measure and optimize everything on our end, without having to ask your permission for every change.

TIME	WHAT YOU'LL NEED	BEATUS EMAIL
2 minutes	Be logged in with the site owner's email in Search Console, at search.google.com/search-console.	kiokurama@gmail.com

1 Open Users and permissions

a. Go to **search.google.com/search-console**. At the bottom of the left menu, click **Settings**.

b. Click **Users and permissions**.

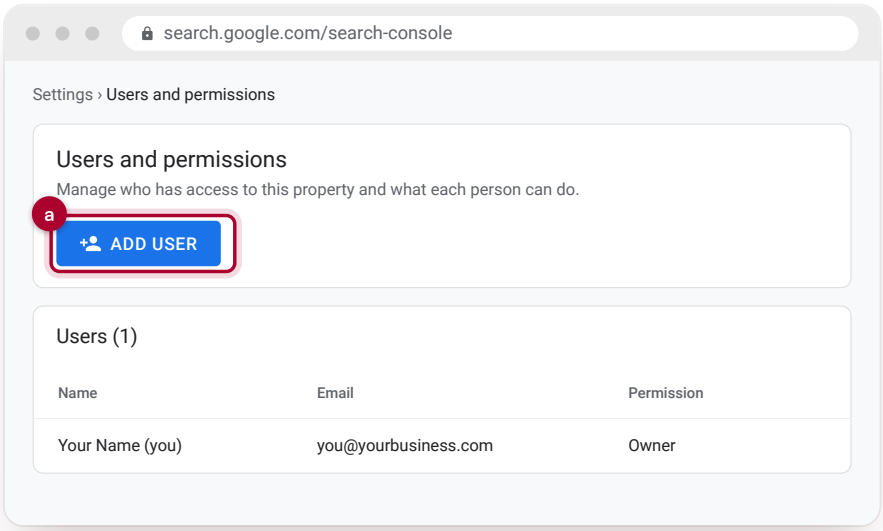

2 Click Add user

a Click the blue **Add user** button.

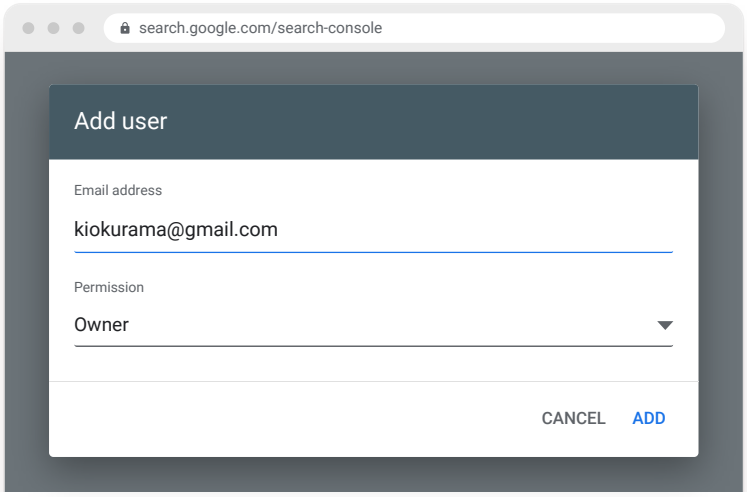

3 Invite Beatus

a Under **Email address**, type: **kiokurama@gmail.com**

b Under **Permission**, open the list and choose **Owner**.

c Click **Add**.

All set!

When you're done, let us know in our WhatsApp group. We'll check the access and get back to you there.

If something looks different

- Your website isn't in Search Console yet? Let us know in the group and we'll set it up for you.
- Is the **Add user** button grayed out? Only the site owner can add people. Ask the person who registered the site to follow this guide.

BEATUS MÍDIAS BY THE NUMBERS
