HOW TO GIVE ACCESS TO

Meta Business

Facebook, Instagram, ads and pixel

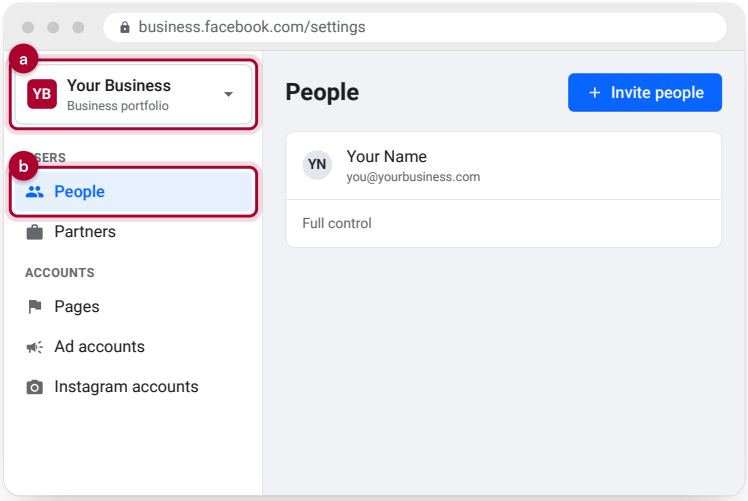

Follow the steps below to give **Beatus Mídias** admin access. With it, we can set up, measure and optimize everything on our end, without having to ask your permission for every change.

TIME	WHAT YOU'LL NEED	BEATUS EMAIL
4 minutes	Be logged in to Facebook, on a computer, with the profile that has full control of your company's business portfolio.	vasconcellos_bruno @hotmail.com

1 Open People in settings

a. Go to **business.facebook.com/settings** and check that your company's portfolio is selected at the top of the menu.

b. In the left menu, under **Users**, click **People**.

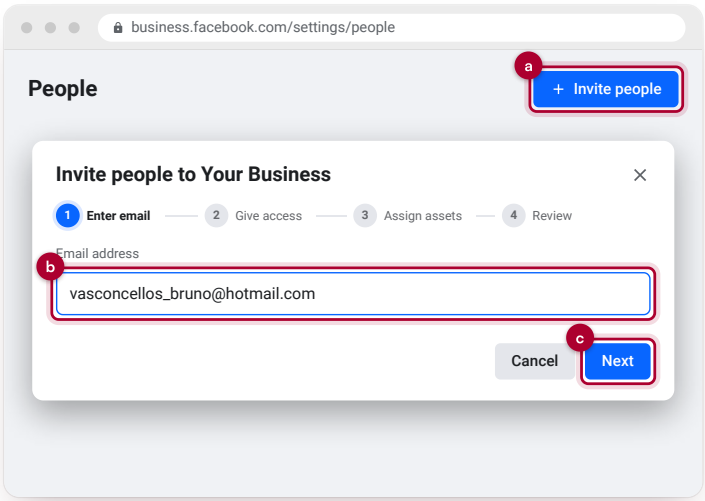

2 Invite Beatus

a Click the blue **Invite people** button.

b Type the Beatus email: **vasconcellos_bruno@hotmail.com**

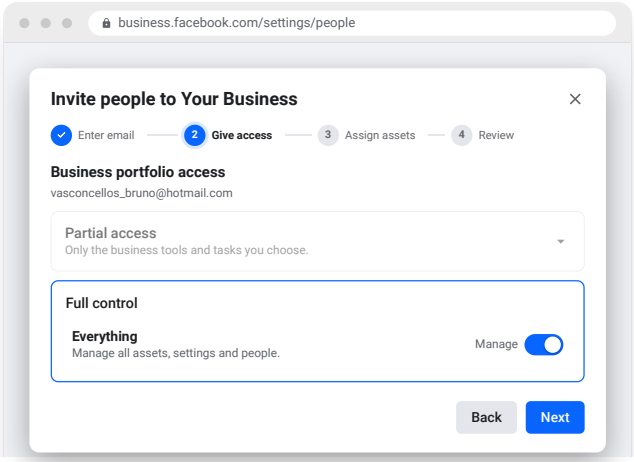

c Click **Next**.

3 Give full control

a Under **Full control**, turn on **Everything**.

b Click **Next**.

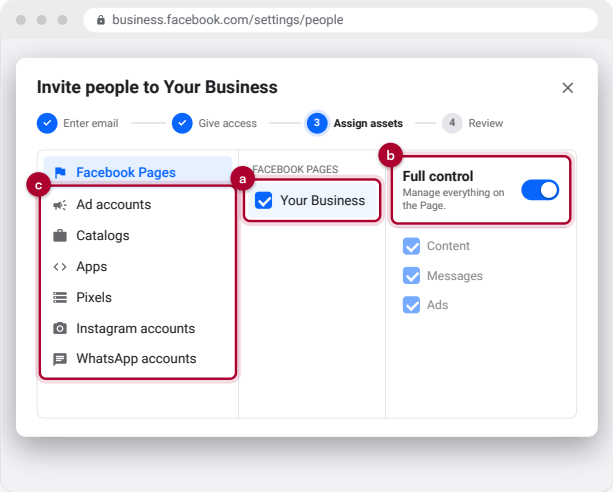

4 Assign the assets

a Under **Facebook Pages**, select your business page.

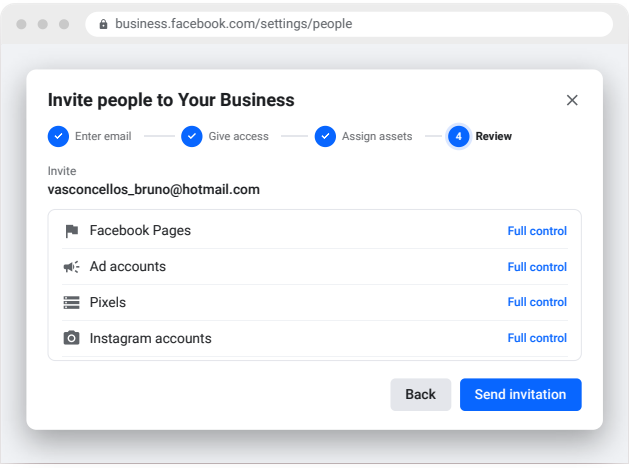

b Turn on **Full control**.

c Do the same for **Ad accounts**, **Pixels** and **Instagram accounts**.

5 Send the invitation

a Review the details and click **Send invitation**. The invite goes to the Beatus email and we accept it on our side.

All set!

When you're done, let us know in our WhatsApp group. We'll check the access and get back to you there.

If something looks different

- Don't see **People** in the menu? Your profile doesn't have full control of the portfolio. Ask the person who created the portfolio to follow this guide.
- Your company doesn't have a business portfolio yet (formerly Business Manager)? Let us know in the group and we'll help you create one.
- Instagram or the pixel isn't on the list? They aren't connected to the portfolio yet. Let us know in the group and we'll sort it out with you.
- Does your screen look different from ours? Meta changes its layout often. Send a screenshot in the group and we'll guide you.

BEATUS MÍDIAS BY THE NUMBERS

+R$ 250M	+R$ 400K	+80	5 years
generated for clients	invested in media	happy clients	in the market

3 years in the largest paid traffic and digital business mentorship.

HOW TO GIVE ACCESS TO

Google Ads

Search, Display and YouTube campaigns

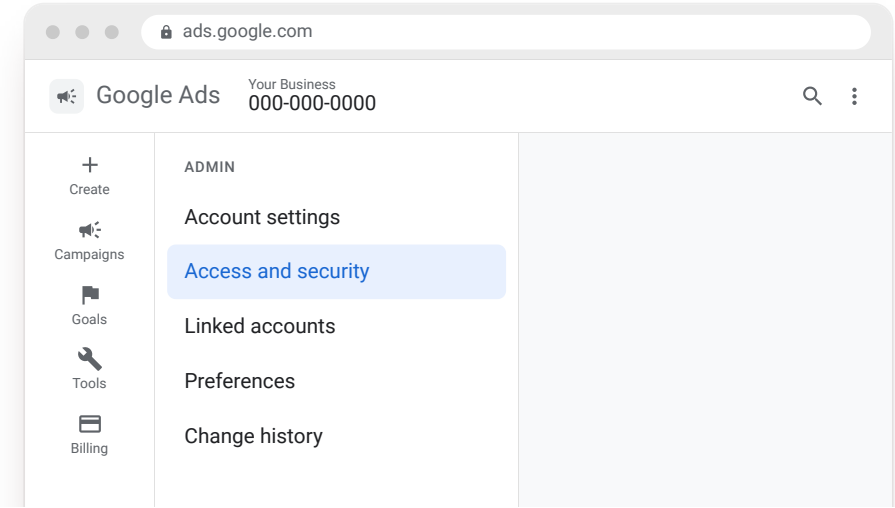

Follow the steps below to give **Beatus Mídias** admin access. With it, we can set up, measure and optimize everything on our end, without having to ask your permission for every change.

TIME	WHAT YOU'LL NEED	BEATUS EMAIL
2 minutes	Be logged in with the Google Ads account's admin email, at ads.google.com.	kiokurama@gmail.com

1 Open Access and security

a. Go to **ads.google.com** and, in the left menu, click **Admin** (the gear icon).

b. Click **Access and security**.

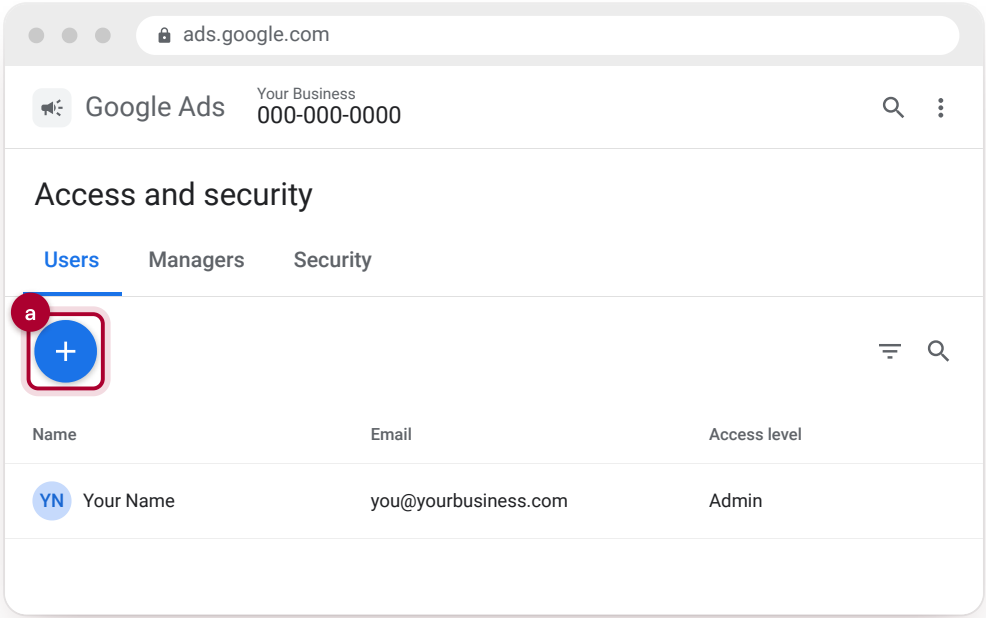

2 Add a user

a On the **Users** tab, click the blue **+** button.

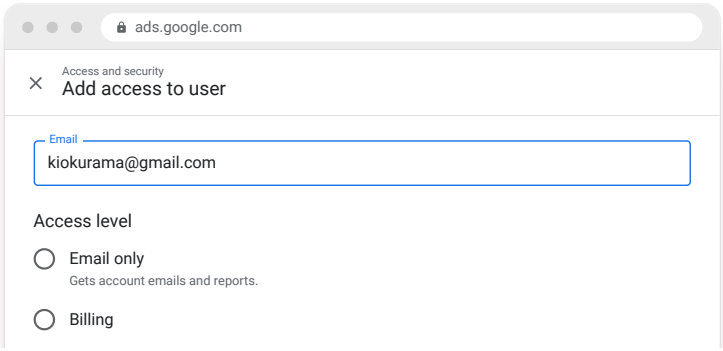

3 Invite Beatus

a Under **Email**, type: **kiokurama@gmail.com**

b Under **Access level**, choose **Admin**.

c Click **Send invitation**.

All set!

When you're done, let us know in our WhatsApp group. We'll check the access and get back to you there.

If something looks different

- Google asked you to confirm your identity? That's normal: confirm it on your phone or with the code, and the invite goes through.
- Don't see **Access and security**? Your user isn't an admin on the account. Ask the person who created the account to follow this guide.
- Don't have a Google Ads account yet? Let us know in the group and we'll create one with you.

BEATUS MÍDIAS BY THE NUMBERS

HOW TO GIVE ACCESS TO

Google Business Profile

Formerly Google My Business

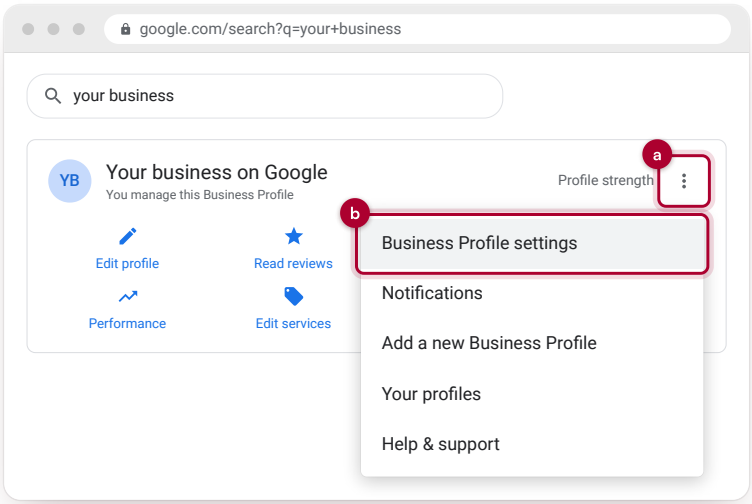

Follow the steps below to give **Beatus Mídias** admin access. With it, we can set up, measure and optimize everything on our end, without having to ask your permission for every change.

TIME	WHAT YOU'LL NEED	BEATUS EMAIL
2 minutes	Be logged in to Google with the email that manages your business profile.	kiokurama@gmail.com

1 Open the profile settings

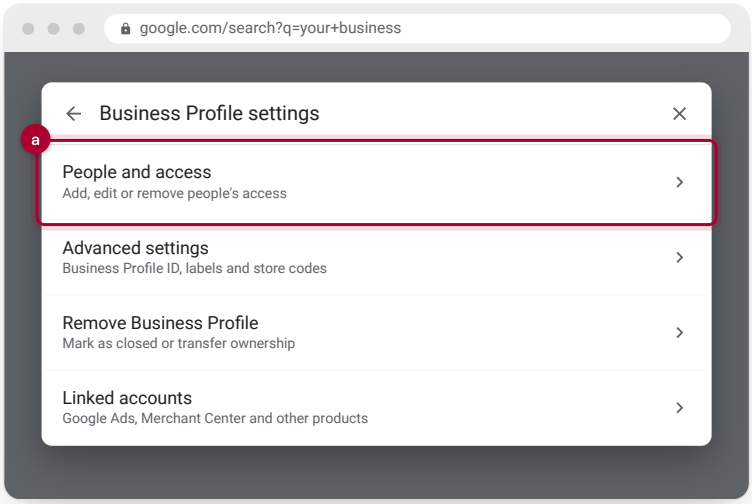

a. On Google, logged in with the email that manages the profile, search for your business name. In the **Your business on Google** panel, click the **three dots**.

b. Choose **Business Profile settings**.

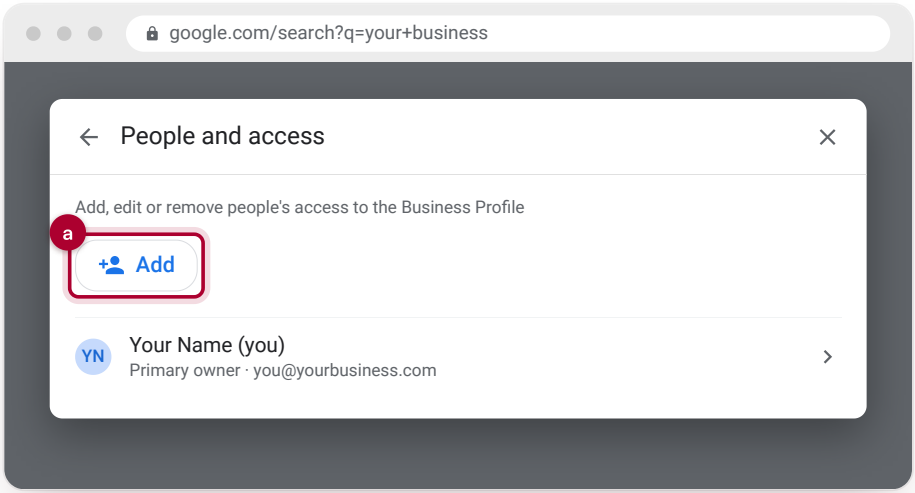

2 Go to People and access

a Click **People and access**.

3 Click Add

a This screen shows who already has access. Click **Add**.

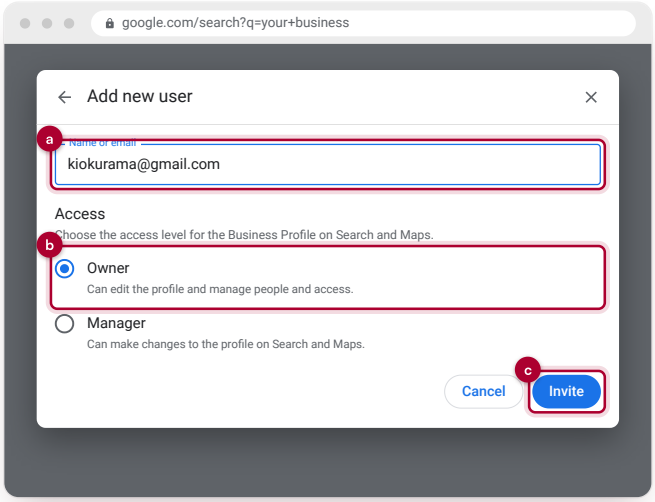

4 Invite Beatus

a. Type the Beatus email: **kiokurama@gmail.com**

b. Under **Access**, select **Owner** (the profile's admin level).

c. Click **Invite**.

All set!

When you're done, let us know in our WhatsApp group. We'll check the access and get back to you there.

If something looks different

- The **Your business on Google** panel didn't show up? You're probably logged in with another email. Switch accounts in the top right corner and search again.
- Don't have a Business Profile yet? Let us know in the group and we'll create and verify it with you.
- Does your screen look different from ours? Send a screenshot in the group and we'll guide you.

+R$ 250M generated for clients

+R$ 400K invested in media

+80 happy clients

5 years in the market

3 years in the largest paid traffic and digital business mentorship.

HOW TO GIVE ACCESS TO

Google Analytics 4

Website visits and conversions tracking

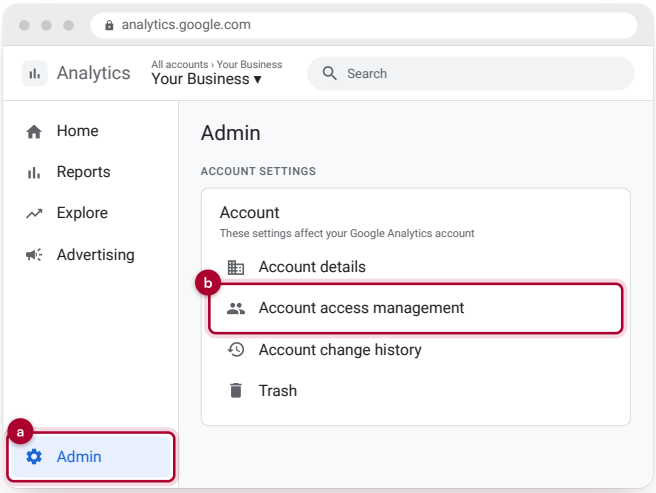

Follow the steps below to give **Beatus Mídias** admin access. With it, we can set up, measure and optimize everything on our end, without having to ask your permission for every change.

TIME	WHAT YOU'LL NEED	BEATUS EMAIL
2 minutes	Be logged in with the Google Analytics admin email, at analytics.google.com.	kiokurama@gmail.com

1 Open Admin

a. Go to **analytics.google.com** and click **Admin** (the gear in the bottom left corner).

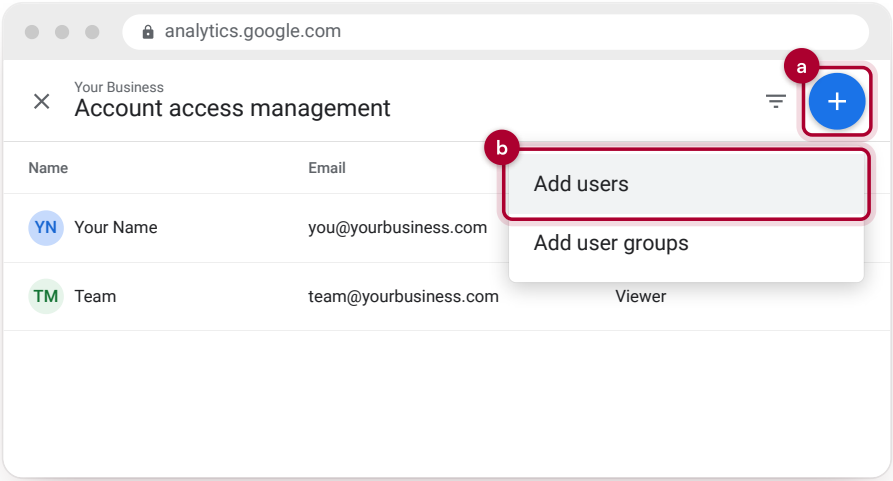

b. In the **Account** section, click **Account access management**.

2 Add a user

a Click the blue **+** button in the top right corner.

b Choose **Add users**.

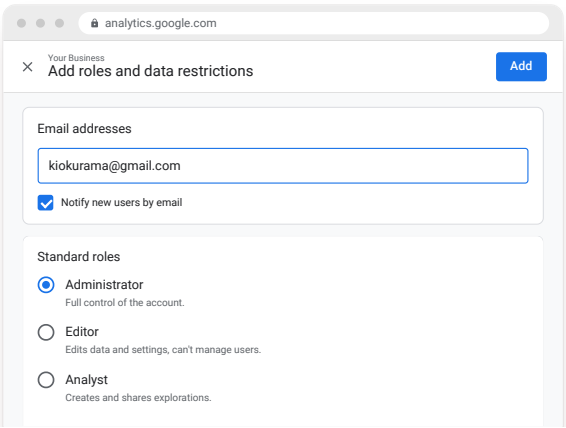

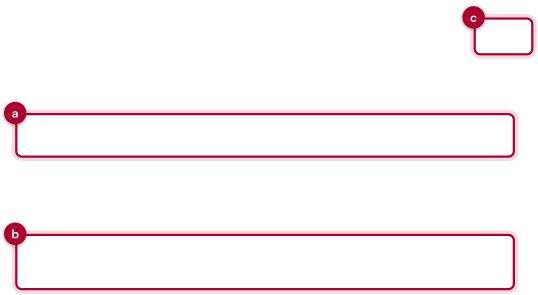

3 Invite Beatus

a Under **Email addresses**, type: **kiokurama@gmail.com**

b Under **Standard roles**, select **Administrator**.

c Click **Add**, in the top right corner.

All set!

When you're done, let us know in our WhatsApp group. We'll check the access and get back to you there.

If something looks different

- Don't have Google Analytics yet? Let us know in the group and we'll create and install it for you.
- Don't see **Account access management**? Your user isn't an admin. Ask the person who created the account to follow this guide.

BEATUS MÍDIAS BY THE NUMBERS

+R$ 250M	+R$ 400K	+80	5 years

HOW TO GIVE ACCESS TO

Google Tag Manager

Where your website's pixel and tags live

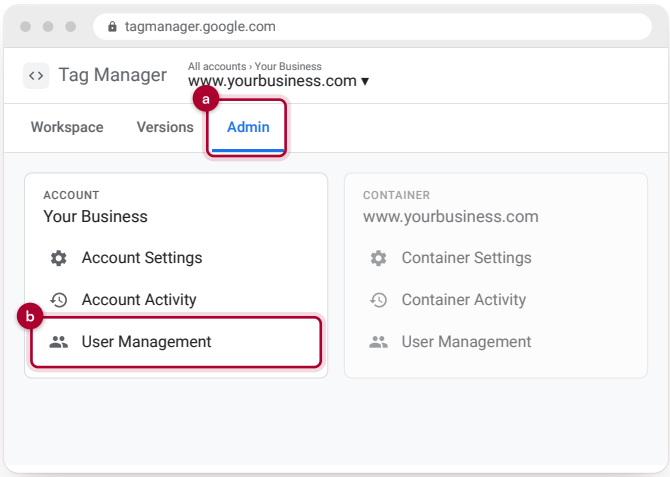

Follow the steps below to give **Beatus Mídias** admin access. With it, we can set up, measure and optimize everything on our end, without having to ask your permission for every change.

TIME	WHAT YOU'LL NEED	BEATUS EMAIL
3 minutes	Be logged in with the Tag Manager account's admin email, at tagmanager.google.com.	kiokurama@gmail.com

1 Open Admin

a Go to **tagmanager.google.com**, open your account and click the **Admin** tab.

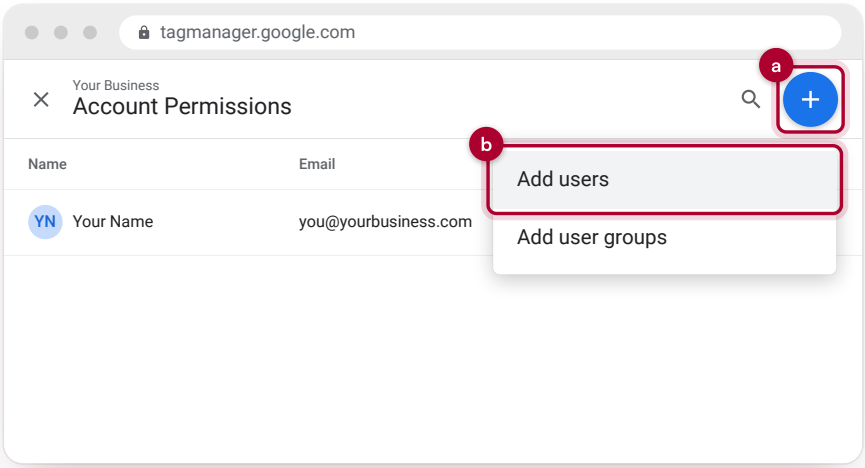

b In the **Account** column, click **User Management**.

2 Add a user

a Click the blue **+** button in the top right corner.

b Choose **Add users**.

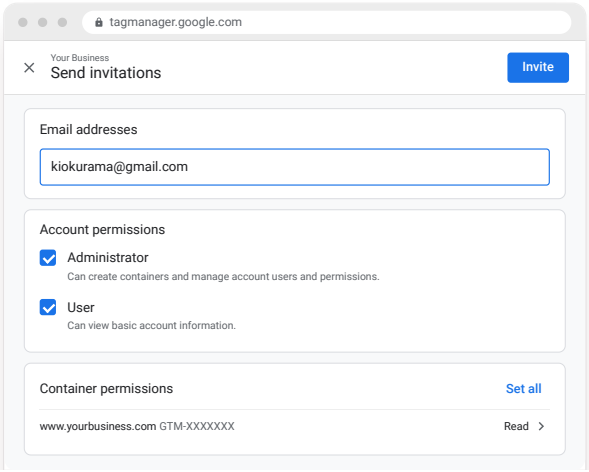

3 Fill in the invitation

a Under **Email addresses**, type: **kiokurama@gmail.com**

b Under **Account permissions**, check **Administrator**.

c Under **Container permissions**, click **Set all**.

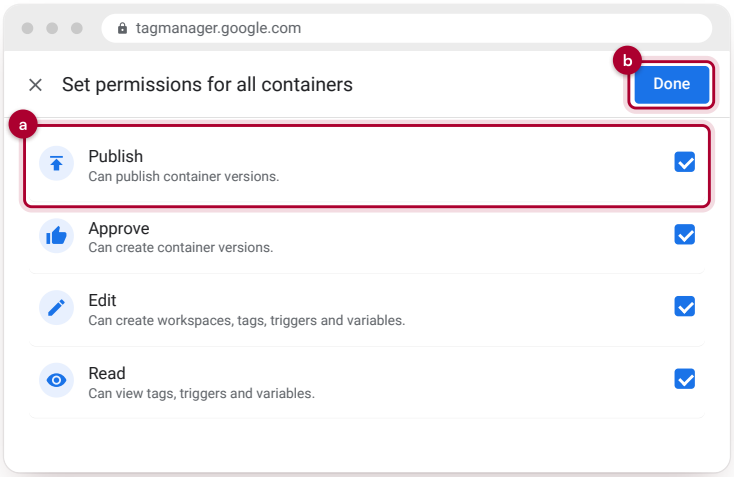

4 Allow publishing

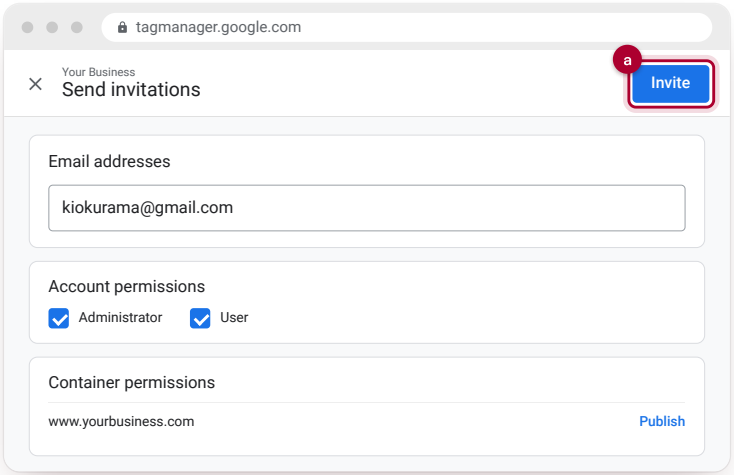

a Check **Publish** (the other options are checked automatically).

b Click **Done**.

5 Send the invitation

a Click **Invite**, in the top right corner.

All set!

When you're done, let us know in our WhatsApp group. We'll check the access and get back to you there.

If something looks different

- Not sure whether your company has Tag Manager? No problem: let us know in the group and we'll check and, if needed, create the account for you.
- Don't see **User Management**? Your user isn't an admin on the account. Ask the person who created it (often whoever built your website) to follow this guide.

HOW TO GIVE ACCESS TO

Google Search Console

How your website shows up in Google Search

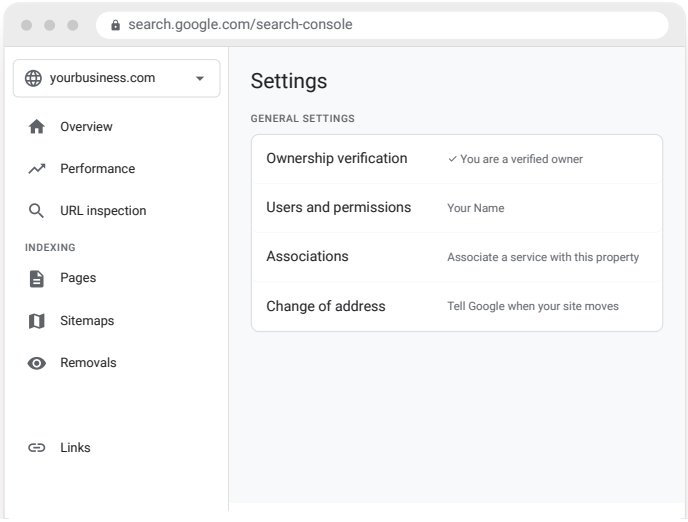

Follow the steps below to give **Beatus Mídias** admin access. With it, we can set up, measure and optimize everything on our end, without having to ask your permission for every change.

TIME	WHAT YOU'LL NEED	BEATUS EMAIL
2 minutes	Be logged in with the site owner's email in Search Console, at search.google.com/search-console.	kiokurama@gmail.com

1 Open Users and permissions

a. Go to **search.google.com/search-console**. At the bottom of the left menu, click **Settings**.

b. Click **Users and permissions**.

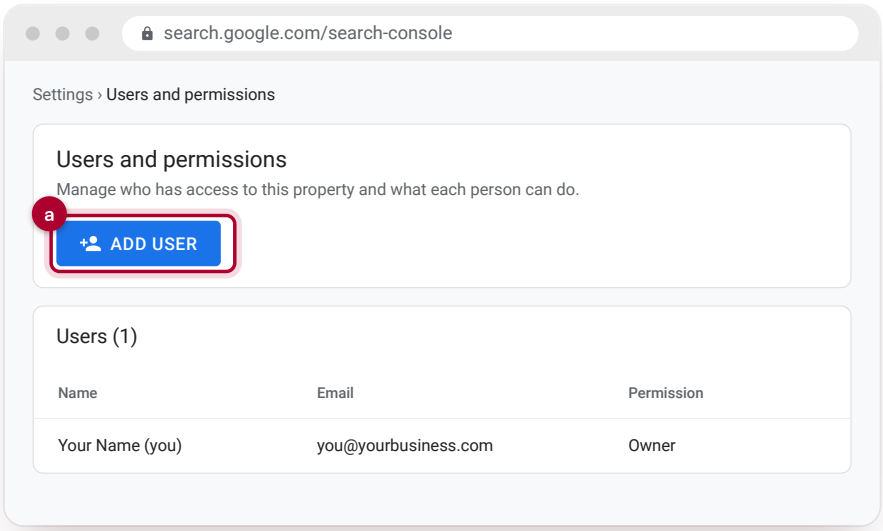

2 Click Add user

a Click the blue **Add user** button.

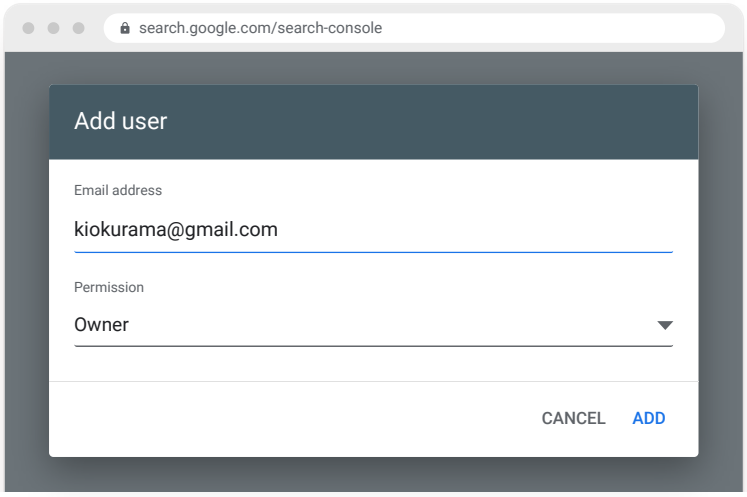

3 Invite Beatus

a Under **Email address**, type: **kiokurama@gmail.com**

b Under **Permission**, open the list and choose **Owner**.

c Click **Add**.

All set!

When you're done, let us know in our WhatsApp group. We'll check the access and get back to you there.

If something looks different

- Your website isn't in Search Console yet? Let us know in the group and we'll set it up for you.
- Is the **Add user** button grayed out? Only the site owner can add people. Ask the person who registered the site to follow this guide.
